

# CTEIS REPORTS

CTEIS also provides access to CTE data collected over time. This enables districts to analyze, plan, and forecast to improve programs to meet the needs of students. Aggregate data reports are available to districts and the public on the MDE website and the Michigan CTE Dashboards available at: [analytics.cteis.com](http://analytics.cteis.com).

CTEIS Reports is the official data compiled from entries into the CTEIS database. Reports can be used to review program course information, trends in student enrollment, and demographic information from the previous school year. Reports are divided into two categories:

Reports available on [reports.cteis.com](http://reports.cteis.com):

## CTEIS Reports

\*These reports do not require CTEIS login credentials.
